

## Welcome to the Solar Revolution!

We provide solar power solutions on Vancouver Island and the Gulf Islands with your community in mind. We are a Co-operative, meaning as employees, we are also owners of the business. This ensures quality, efficiency, and reliability.

### **Available Now - Federal Canada Greener Homes Grant and Loan Program**

- \$600 (actual cost \$900) for a home evaluation and expert advice so you can begin to plan your retrofits
- up to \$5,000 total to help you make energy efficiency retrofits to your home
- up to \$40,000 loan for 10 years with **0% interest**
- up to \$1,000 total for batteries connected to photovoltaic systems

### **Residential Solar**

- Grid-tie / grid-tie with battery / off-grid
- Clean energy, carbon footprint offset in less than 2 years
- Offset a significant amount of your BC Hydro bill with net metering
- Minimizes tier 2 pricing on your bill
- Long term lifespan > 35 years with a 25 year warranty
- Roof mount and/or ground mount solar options
- Real estate values increase by 3-5% when solar is installed - Ask Johannsen Group
- **The only investment in your home that offers true payback!**

### How we work with you:

- Customized design and quote for every project
- References in every town, city and village on Van Isle and the Gulf Islands
- Electrical design and installation by Red Seal qualified and experienced personnel
- Leak-free, structurally sound investment designed to last a 30+ year lifespan with 10 year workmanship warranty
- A stocked warehouse with longstanding vendor relationships ensures best price and equipment availability

Since 2012, we have installed over 14,000 solar panels producing over 5,000 MWhs of energy.
